Phone: +91-8408078694  
Email: dnyanenagapure19@gmail.com

## Career Summary

- Skilled React.js Developer with over 3.5 years of experience in front-end development, specializing in designing and implementing user interface components.
- Expertise in React.js, Redux, HTML, CSS, JavaScript (ES6), and performance optimization.
- Proven ability to develop highly responsive applications and enhance user experience.
- Adept at profiling and improving front-end performance while documenting codebase.

## Technical Skills

- Languages/Technologies: React.js, Redux, Flux, Webpack, JavaScript (ES6), TypeScript, HTML, CSS, RESTful APIs, JSON, PHP, MySQL, jQuery, Bootstrap, Material UI
- Tools: Babel, NPM, Yarn, AWS, Git, JIRA, Jest

## Work Experience

Software Developer  
Vinsys IT Services  
March 2023 – Dec 2024

- Project 2: SIDBI Bank
  - Led the development of a sophisticated Loan Origination System (LOS) to automate and optimize the loan processing workflow, resulting in a 30 percent reduction in processing time.
  - Utilized cutting-edge technologies including React.js, Redux, HTML, CSS, and JavaScript to create a seamless and user-friendly interface.
  - Implemented real-time data validation and dynamic form generation to streamline the loan application process and improve user engagement.
  - Collaborated closely with cross-functional teams to ensure integration with backend systems and compliance with financial regulations.
  - Technologies: React.js, Redux, HTML, CSS, TypeScript, MUI, JavaScript, Jest.
- Project 1: Human Resources Management System
  - Led the development of an HRMS application to streamline HR functions and improve efficiency.
  - Designed and implemented features such as employee self-service portals, automated leave management, and performance tracking modules.
  - Enhanced the application's scalability and security by integrating role-based access controls and automated data backups.
  - Technologies: React.js, Redux, HTML, CSS, JavaScript, JEST, MUI.

Frontend Developer  
Persistent Systems Limited  
Dec 2021 – Feb 2023

- Project 2: IDFC Bank
  - Contributed to the development of a loan management system that provided an intuitive interface for loan application and tracking.
  - Implemented key features such as loan application forms, status tracking dashboards, and automated notifications for application updates.
  - Technologies: React.js, Redux, HTML, CSS, JavaScript.
- Project 1: Expense Tracker App
  - Developed an expense tracking application for internal use, enhancing user satisfaction and efficiency.
  - Technologies: React.js, Redux, HTML, CSS, JavaScript.

Frontend Web Developer  
Tecure Technologies  
Sept 2019 – Feb 2020

- Project 1: Agricultural Vehicles Buy/Sell Platform
  - Created a platform for buying and selling agricultural vehicles, contributing to digital transformation in the agriculture sector.
  - Technologies: React.js, Bootstrap, HTML, CSS, JavaScript, PHP, Laravel, MYSQL.

## Education

- Master of Computer Application (MCA): HVPM, Amravati - 2021
- Bachelor of Computer Application (BCA): HVPM, Amravati - 2019
